

Eugene Water & Electric Board

The EWEB prescription plan is supplemental to the prescription coverage provided by a PERS Health Plan to Tier 1 and Tier 2 Medicare eligible retirees and their covered dependents.

Only those Medicare eligible retirees in Tier 1 and Tier 2 may receive this supplemental prescription medication coverage. The EWEB prescription supplement is secondary to PERS and pays 50% of the remaining balance (PERS pays 60%). Members should use a specific form prepared by PacificSource Health Plans and submit their claims for reimbursement. The Plan will pay the members directly. If PERS denied the prescription medication, then it will not be eligible for reimbursement under this supplemental prescription medication plan. Reimbursement is based solely on the balance of what PERS did not cover. All Medicare eligible retirees in Tier 1 and Tier 2 who are receiving a subsidy from EWEB for PERS health plan coverage must enroll in the EWEB prescription supplement plan. The supplemental plan will pay as follows:

	Tier 1: Generic	Tier 2: Preferred	Tier 3: Non-preferred
Supplemental Prescription Plan			
Reimbursement:	50% reimbursement of the remaining balance (PERS pays 60%)	50% reimbursement of the remaining balance (PERS pays 60%)	50% reimbursement of the remaining balance (PERS pays 60%)
